This is a continuous posting and may not reflect a current vacancy. Your application will be retained and considered active for 90 days.

Advanced Construction Engineering Inspector

Key Responsibilities include:

- Serves as a Lead Project Inspector on construction activities.
- Directs and supervises lower level Construction Engineering Technicians.
- Support engineers in areas such as construction inspection, material sampling and testing, and construction traffic control.
- Perform standardized and non-standardized testing and assignments by compiling, analyzing, computing, editing and processing field data.
- Perform minor calculations for survey notes and estimates.

Knowledge, Skills and Abilities / Competencies:

- Knowledge in planning, developing, scheduling, tracking and completing projects independently or with limited supervision.
- Knowledge in applying engineering concepts to solve complex problems.
- Ability to provide customer service involving the explaining and resolving complicated engineering concepts to various customer groups.
- Knowledge in roadway surveying, GPS surveying, the use of sledge hammer, and bush axe.

Minimum Education and Experience Requirements:

- Associate's degree in the assigned discipline; or equivalent combination of training and experience.
- Employee must be proficient in record keeping, plan reading and construction surveying.
- Experience with Microsoft Office products and drafting software.
- Experience working in a team environment to complete assignments.

Additional Information:

- Must obtain and maintain certifications required to perform material sampling and testing.
- May be required to work anytime including nights, weekends, holidays and extended hours to fulfill inspection and surveying needs.
- May be subject to outside environmental conditions, noise and hazards from vehicles and construction machinery.
- Safety toe shoes are required.
- Must have a valid Class C Driver's License.

Information listed is not a comprehensive list of activities, duties or responsibilities that may be required to fulfill this position and other duties, responsibilities and activities may be assigned or changed at any time with or without notice.
